### LONG-LISTING OF SKATERS

To ease the process of quickly entering delegations (skaters, coaches, chaperone, etc.) into a Jr. Grand Prix via the ISU on-line system, Skate Canada will use a similar internal process as in previous skating seasons. All members of the NextGen Team will be considered “long-listed” entries for Jr. Grand Prix, which is a process similar to the registration process to the Olympic Games. “Long-Listed” does not mean a skater/team will be automatically named to a Jr. Grand Prix but rather there is a probability that you could be named. Therefore, all “long-listed” skaters will be asked to complete all the required entry forms for the Jr. Grand Prix.

In the next few weeks, Skate Canada staff will send NextGen Team members instructions regarding the appropriate documents which need to be completed. We ask that team members respond within 7 days unless given a shorter time period to respond.

### PROCESS FOR SELECTION TO A JR GRAND PRIX

Grand Prix assignment are not exclusive to the NextGen Team. **All skaters competing at the Junior level at select Summer competitions who are age eligible according to ISU rules will be assessed along with members of the NextGen Team.** Those skaters showing the strongest potential based on the Jr Grand Prix and International selection guidelines will have greater chances to be named to a Jr Grand Prix.

### STAGES OF SELECTION

Stage 1 – Skaters/teams with medal performances at 2021 ISU Grand Prix and/or top 10 performance at 2022 World Junior Championships will be nominated to Jr Grand Prix starting in early July. Follow up monitoring sessions will take place from late-June to late-July to oversee the progress and preparedness of these nominated skaters/teams to ensure they are on track to achieving an optimal performance at the Jr Grand Prix in which they are assigned.

Stage 2 – Following the monitoring sessions in late June and early July, some additional skaters will be named to a Jr. Grand Prix in early July. These skaters will be required to compete in at the NextGen Competition/Camp in late July to ensure that the progress during the summer months is on track to achieving an optimal performance at a Jr Grand Prix. Such skaters may be asked to compete at an additional competition during the summer.

Stage 3 – During the competitions scheduled in August (AB, QC, ON, BC), all skaters competing in the Junior category will be assessed. Following these competitions, additional skaters may be named to represent Canada at a Jr Grand Prix.

### **“LONG-LISTING” PROCESS FOR NEW PAIR AND ICE DANCE TEAM**

Coaches of new Pair and Ice Dance Teams who believe their teams have a strong possibility of achieving the selection guidelines at a 2022 summer competition should contact their Section Technical Director to arrange a monitoring session with Skate Canada technical advisors. Skate Canada is continuously working with various Sections to identify any new or existing teams who have shown respectable development during the spring months and are potentially on track to perform well at a Jr Grand Prix. All new teams will be monitored prior to being long-listed. Following the monitoring session, some new teams may be added to the “long-list” of Jr Grand Prix potential skaters. Prior to be named to a Jr Grand Prix, new teams will be required to compete at a summer competition to demonstrate they can achieve the required skating standard in a competitive environment.

### **OFFICIALLY NAMED TO A JR GRAND PRIX**

Skaters/teams are officially named to a Jr Grand Prix once they have received and accepted the official invitation from Skate Canada. Once accepted, their name will appear on the Skate Canada website.

### **NAMED TO A JR GRAND PRIX ON ISU WEBSITE BUT NOT SKATE CANADA WEBSITE**

In some rare instances, a skater’s name may appear on the ISU website as entered in a Jr Grand Prix and not the Skate Canada website. In this case, the skater has yet to receive an official invitation from Skate Canada and is still being considered for a Jr Grand Prix along with other skaters. This process will be used when Skate Canada needs to reserve the place for an entry. Failure to provide an entry to the ISU by the deadline will result in Skate Canada losing the entry spot which could go to another country.

### **SELECTION GUIDELINES**

Skate Canada has developed Selection Guidelines which are based on current skating trends at the Jr. Grand Prix level. The guidelines are designed to ensure Canadian skaters have the success necessary at a Jr Grand Prix to ensure the smoothest transition to the Senior category which will assist them to succeed international on a long-term basis. Success at a Jr Grand Prix is not necessarily measured by medals won, but by having Canadian skaters be competitive, performing at their personal best and self-identifying the factors which can contribute to personal best performances. Please refer to Appendix A for the Selection Guidelines

### **MONITORING SESSIONS IN A TRAINING ENVIRONMENT**

NextGen skaters may be monitored in their daily training environment. The purpose of these monitoring sessions is to provide feedback to the skaters on their development and to ensure that the skater is on track to performing well at upcoming competitions. Decisions with regards to selection to a Jr Grand Prix may be made following these monitoring sessions. These monitoring sessions will include some members of the Skate Canada High Performance Team. In some cases, a Section representative may also assist in the monitoring sessions. Skaters will be expected to perform a free program in which the technical content performed may be adjusted depending on the program's stage of development. Any technical elements which are not performed in the program must be performed in isolation with a few repetitions to demonstrate the consistency and quality of the elements.

### **MONITORING DURING SUMMER SERIES COMPETITIONS**

All NextGen Team members will be monitored at select summer competitions. Some benefits Skate Canada hope skaters achieve with this monitoring and debrief process are:

- Improved performances
- Increased motivation
- Clearer focus and direction
- Greater personal satisfaction which leads to greater confidence

Coaches of NextGen Team members will be asked to set up a meeting time following the event in order to have a brief discussion.

### **WORKSHOPS FOR PARENTS OF POTENTIAL JR GRAND PRIX SKATERS**

Skate Canada will conduct virtual workshops for parents of all NextGen Team Members and "Long-Listed" teams.

Dr. Judy Goss will conduct these virtual workshops. The focus of the workshop is for parents to share ideas, challenges and successes when it comes to parenting an elite athlete. In addition, these workshops will provide an opportunity for parents to meet other parents and build a supportive community of parents of NextGen skaters.

At least one parent of each skater is required to attend a workshop. Should a parent of a skater not attend, Skate Canada will have the right to withdraw the skater from the Jr Grand Prix or International competition. In addition, this is an opportunity for Skate Canada High Performance staff to meet the parents and answer any questions. Please note that in order for an individual to receive a chaperone pass at an ISU Jr Grand Prix, they must attend this workshop.

### Appendix A - Selection to 2022 Jr Grand Prix and International Competitions

Skate Canada will take the following factors into consideration when making decisions with regards to the selection of skaters/teams to represent Canada at Jr Grand Prix and Jr International competitions:

- Selection will be based on those skaters who can best demonstrate the potential to achieve the skills outlined in this document which are based on World trends at Jr Grand Prix
- The number of years a skater/team is eligible in Junior
- The skater/team's consistency of performances from one competition to the next
- The improvement and progress the skater/team has made from the previous season
- The number of available entries at the Jr Grand Prix
- Skate Canada budget
